Hamlin of Ellsworth, Commissioners for the State of Maine for the Promotion of Uniformity of Legislation in the United States, have made their third blennial report. Conferences have been devoted mainly to perfecting a bill relating to procedure in divorce cases.

This bill attempts to furnish a remedy for some of the alleged evils that have attended divorce procedure in the different States and especially by preventing a change of residence made in order to procure a divorce.

change of residence made in order to procure a divorce.

The bill also attempts to introduce uniformity as to length of residence required
in the various States on the part of the
persons applying for divorce. Personal servtee is also required wherever feasible, and,
in case the residence of the absent party
is alleged to be unknown, proof is required
of reasonable inquiry and search to ascertain the residence, continued for one year.

The bill requires all hearings to be before
a court in open session. In cases where no
defendant has appeared and notice is given
by publication only, a decree is to be entered which is not to become final until after
an interval of six months, thereby giving an
opportunity to the absent party to show
cause why a divorce absolute should not be
granted.
